This game gave me the power to defeat my greatest enemies 10/10. I didn't liked this game at all. I still want my 8 euros back. Nice premise but that's all it is really. Everything is placeholder so there's very little in terms of content and mechanics.

Appears to be abandoned, nice waste of my money :))))). Having bought the Season Pass since day 1, I'm very satisfied with the dresses and tuxedos that the Vol 1 characters received. Beautiful dresses, smooth and smart tuxedos.

Looking forward to Vol 2!. Really an adventurous & humorous game, only thing I would've like to suggest is providing hints description for certain sidequest that seems to be troublesome as well for other characters\heroes to have some dialogues. Overall I enjoy playing this game^. This takes some getting used to, but for the price - well worth the look.

Promising roots within it, and for it being done by one guy its just impressive to say the least. A good game for the cost and well worth it.

Played it till the second round... game bugged out for a second time and I couldn't finish it and didn't bother playing after as I would probably need to restart the round cause last save also bug out.. boring and repetitive. Well first and foremost, lets clear some things up about this DLC... Those who are still reporting an FPS drop must have other issues - the patch back in December corrected the issue, which wasn't as wide spread\as big an FPS hit as was proclaimed by some users. And also the 15 mile an hour limit that some are hitting is due to their inability to read\understand directions or how to disable the alerter. But you can also find that out by reading forums, and by looking at youtube videos of the train zipping along at 90+ mph.

That said, this was a highly anticipated piece of stock and it fits perfectly with the New York to New Haven line. And while this is not a perfect DLC - nothing is. Not any more at lease... For those who want to add the most recognizable piece of metro north's rolling stock definately look past those misinformed reviews and into picking this up.. Grat game and enjoy very much. Can more people get this so I can PvP
